COVID Taskforce Transition Highlights

- Partnership between leaders in the COVID Task Force and PHD Branches
- Use learnings from COVID response to bring new functions into PHD and DPH
- We are extremely grateful for our collaboration with DPH leaders, external partners, and taskforce staff who continue to help us with this process of integrating and learning

Public Health Accreditation

March 2017 – Achieved Original Accreditation

March 2023 - Approved for Reaccreditation

September 2023 – Complete Documentation Due

TBD by PHAB – Document Review and Virtual Site Visit

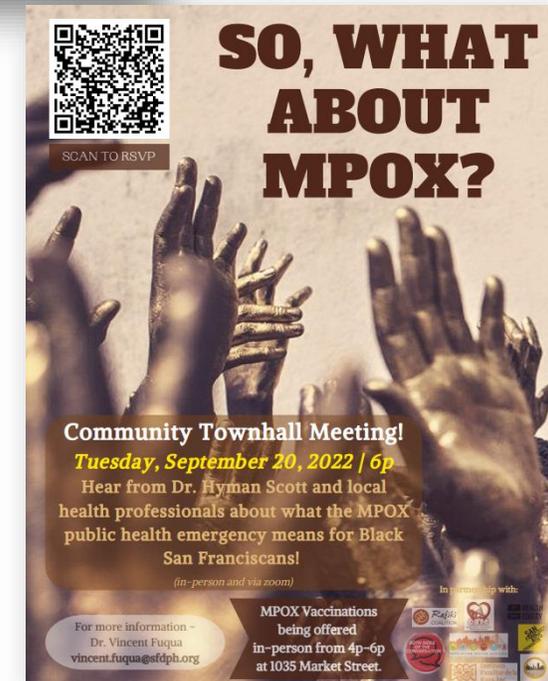

Responding while Rebuilding

PHD: MPOX Response

- Summer 2022 we were faced with global outbreak of MPOX among LGBTQ+ persons and rapidly escalating cases in San Francisco with severely limited national vaccine supply.
- Became first US jurisdiction to announce that we would declare a public health emergency
- While many challenges for the public and our teams, built on lessons and partnerships from COVID-19
- Rapidly created a public dashboard, saw disproportionate cases among Latinx persons
- Community partner organizations with expertise in LGBTQ health and sexual health centered non-stigmatizing language and a rights-based approach. Incorporated MPOX work into covid community-based infrastructure.

Responding While Rebuilding PHD: MPOX Response

- The DPH City Clinic team responded quickly to test, vaccinate and especially treat patients with mpox – they were the largest treatment site citywide.
- The DPH ZSFG DET team who were the only large volume walk in site and administered 25,500 vaccines
- Health System partners at UCSF and Kaiser Permanente vaccinated people who were uninsured or outside their network, in addition to their own patients.
- We have recently been able to celebrate 50,000 vaccination doses given
